

Weare Economic Development Committee Minutes - November 15, 2005

The meeting opened at 7:10pm

Present: Jim Thompson, Art Siciliano, Cheryl Elliott, George Malette, Heleen Kurk, Alice Morris

The minutes for the October meeting were approved as written.

WEDC discussed Planning Board suggestions to the proposed changes to the zoning ordinances. The committee rewrote those sections and approved the changes. WEDC will present the proposed changes to the Planning Board at a joint meeting to be held November 17, 2005.

There was a question as to whether the Planning Board requires a compliance hearing before new businesses can occupy their building. A compliance hearing would make sure the business was built and landscaped according to the plans approved by the Planning Board.

It was suggested that a meeting with code enforcer Chip Meany could lead to a useful discussion.

New/potential businesses/land availabilities were presented to members.

The meeting adjourned at 8:58 pm.

Respectfully submitted,
Alice Morris, secretary
